Willard Sayles has been appointed Colonel tachment which distinguishes the best class of of a Cavalry Regiment to be raised for innucliate above Beverly's Ford which is just below the Railone foreign-horn citizens. When the call came service for men one year ago, he abandoned his retired and attractive life of learning, and the happy ments of volunteers are to be immediately raised, domestic ties which had grown up around him in his beautiful home at Schenectady, to raise a regiment of his German countryman for the defense of the retionality that he loved so well. In due time his regiment was raised, and he ted

Capt. Schwerin was a member of the Senior Class of Union College, and belonged to a family of the highest respectability and worth,

The resulef the story is soon told. The 11th Corps, overwhelmed by a mass of the enemy, broke and find ; but the brave colonel of the 11966, and his gallant young companions, washed out with their blood the stain, that blotted its frame. They were struck down while rallying their troops, and endeavoring to prevent the cout of the corps. Honor and I mg remembersure around such a death. Nor are such lives wasted though cut short. They are the nobie arrentives to noble deeds.

A Harrisburg dispatch, dated this morelog, states that all important documents in the Capitol were being removed to a place of safety, in case of extraordism being necessary.

Harrisburg, June 15—1 A. M. Everything looks very gloomy here. The indications are that the robels will be within sight of Harrisburg to morrow, and in the absence of troops to stop the advance of the rebels, the destruction of all the bridges along the Susuehauma is inevitable.

The attempts to get troops from Washington have failed, and all the energies of the State must be directed towards arresting the paggress of the tebels. The rebels must not be allowed to cross the Susqueham river.

The country south of the river there is no hope of saving from devastation and pillage.

Our Army Correspondence.

About a week ago the paymaster made us a rather unexpected but very welcome visit and paid as up to the first of Mar.

On the same day there was a report that the rehe's were crossing the river in large force near maps as we could. At 8 o'clock next morning the Sulphur Springs and the whole Division went over in that direction but returned in the night as the rebels after skirmishing with our pickets had re erossed not without losses on both sides. A day e two after the Division accompanied by the disposed of at tabulandy low prices -many of lattery started at two in the marring and crossed Whereas, the measure of the series of annyunia of Pennsylvania by the rebel armies, the in- which were works of the most costly character, the river driving the rebels toward Colpepter as for as Hoze river beyond the little town of Jefferson where we skinnished last November. After returning from there and a day or two of rest wa

> eight miles and camped there that night. Early on the morning of the minth the Division russed at Kelley's Ford leaving its baggage trains in this side the river at Mt. Helly Church, at the ame time Greggs Division was crossing at Rapahannock Station and Cumninghams Ford: they advanced in line of battle driving the rebels to Stevenshurgh which lies seven toiles easterly from Compensation of the control of the c Ford charging them several times and fighting the whele way, supported part of the way by Intantry.

At Stevensburg they found the forces of the enemy too strong for them as they had both uttillery and intantry in large mambers and at one time they were in imminent danger of being flanked and cut off. Col. L. P. di Cesnola of the fourth New York who now commands our Brigade, extricated them as he led them gallantly through the day and fell back to Mountain Creek a distance of three miles forends Kelly's Ford.

From this place the Brigade murched to the sup orl of Gregge Division who had been lighting all the murring at Brandy Station and had lost two rion Frank.—The well known firm of Viti Booth, picces of artiflery though one of them baset, and ers of Philadelphia, has sent to our city a number was useless; these were recovered during the day and one mure taken from the enemy. On arriving of six or seven miles from Mountain Creek the Brigade advanced about a mile towards Brandy Station, meeting the second Brigade, third Division (Greggs) under Gen. Wyndham, well known for losses of the entmy and driving them nearly to Culperper Court House; he was wounded in the leg when our men saw bim but remained at the head of his command through the day; he is an Englishman of high birth and Colonel of the 1st New Jersey Cavalry. The rebels threaten to hang him if they catch him accusing him of having hoken a parole.

Our Brigade's mivance lowerds Culpapper Court House was checked by formidable batteries and they fell back a short distance and then directed their course towards Conningham's Ford, distant seren or eight miles and three and a half miles road Bridge at Rappahannock Station which has been burnt and rebuilt so many times; at Cummings Ford they recrossed the Rappahannock close ly tollowed by the rebel cavalry and merched down to Rappubaunock Station and bivouseked for the night, well tired out by the days exertions, having marched a distance of nearly litty miles, ekirmish INVASION - REPORTED BATTLE AT ing all the may and more than once setimely on BUIL RUN BETWEEN LEE AND gaged. The loss of our division I cannot accurate ly statu so will say nothing about it nor the number of pilsoners taken though I saw about fifty names on the Provest Marshal's book.

The lighting at Beverly's Ford was very sever into in the day as the enemy had houried up 16 inforcements and pressed our men all along the river with an overwhelming force. At night they again posted their pickets along the right bank of the river. I cannot state the mumber of infentry who crossed the river, but they merely supported the cavalry and inpacted artitlery and took no part in the fight.

On the morning of the tenth the Division returned to the old camp and on the morning of the eleventh our Regiment was sent out on picket to Liberty, a small villago between Rappahauneck Station and Warrenton for three days.

Our inevenient is supposed to have been intended as a check to the robals who were about startbridges along the Susquehama is inevitable.

On our march to Morrisville we passed by it and it looked very natural; I conversed with an old darkey who saw the affair, and he told me that shortly after the Black horse had to scamper as here as we did when some of our mon get after

The rebels have learned lately by bitter experience that in this their favorite arm of the service the yankees are more than a match for them, o schre drill and in confidence in the use of that weapon we far excel them; they put their chief trust in hiro arms and when they make a regular charge which they rately do, usually come up dis-charging their pialels while our mon go in with the sabre and reserve the restol for the incise, they have a carious kind of mounted infantry or skirmishers with long-rifles which are a great nuisance and in all their tighting adopt more's brigands tactics than the art of regular warfare.

The country about Alexandria is aplendid, Gov. Moore's plantation, about 8 miles from Alexandria, is the most beautiful catata I ever saw, and is surrounded by others finely cultivated, and ornamented. The mileh steek about the Red and Atchfaluge rivers, is very line.

We know that fighting is going on at Port Hudsun, and har been several days, we can hear the announding, the distance from here is 50 miles in a direct line, we hear rumors of the loss of several dictinguished officers, but the news is not sufficiently certain to make it proper to men-

The news from Perl Hudson is evidently suppressed. I feel auxious to bear it, for our regiment is there, and as Cavalry is short in this department, I expect they are doing bard work .--

My letters are few and far between, for when s are on the merch or in the field, we are so constantly coupleyed that there is no opportunity to write, and when we halt, for any longth of time, there is nothing to tell.

## THE PLANS OF THE INVADERS.

The PLANS OF THE INVADERS.

New Yook, June 17.

The Herabla Washington special says:

From rebel courses the following is learned.—

I do not know what truth may be natacked to it. It coincides however with what robel sympathizen here heve myteriously whispored from time to time: Lee's army numbering ninety-six thousand mea has been divided into three parts.

No. 1. Stated six days ago from Gordonsville for Parkersburg, Virginia.

No. 2. Left Colpepper Court House to proceed by way of Grafion to Wheeling and Pittsburg with instructions after occupying the latter place to units with No. 1, and to proceed through Ohio into Kentucky.

No. 3. Was to proceed by way of Winchester

into Kentucky.

No. 3. Was to proceed by way of Winchester and Horpers Ferry into Maryland and Pennsylvania, towards 'Harrisburg or Baltinoro with a view to make a diversion to occupy the attention of the Federal army of the East. This last division of the Federal army of the East. This last division of the Federal army of the East. This last division of the role army is composed very largely of cavalry and mounted artillary.

Richmond is for the present abandoned with the expectation that conscripts and now levies will be brought there insufficient numbers to garrison the defence. It is expected that a force of from 20,000 to 30,000 rebet sympathizers will be in readiness to operate with the third division.

It is also stated and is very generally believed here that Brazg lad joined Lea and that the rebel army moving in that direction amounted to one hundred and fifty thousand men. To corroborate that all the points in the part of the country have been fortified with the highest degree of art, and to such an extent that there was nothing more left to be done, and that instead of sending reinforcements to their garrisons at the South-west they have actually been souding roinforcements from their Western armies to Lee, with a view to offensive operations against the free states.

#### FROM THE FIFTH ARMY CORPS.

The Heralds Fifth Army Corps correspondence, dates June 15th 1 P. M., states; we left our last earny at 6 o'clock and the intense that has made the march very severe for the troops quite a number of them were sun stroke on the road. Our troops are all in position with bat-teries planted in readiness to resist any hostile demonstrations, should the enemy show himself. All sorts of runters prevailed as to the position of the enemy and it is amoning to hear their contradictions. Some assert that he is firmly utrenched while others may be is following on after us at the height of his speed. Some again declare that he is pushing into Maryland while others as positively aftern that Lee and his enothers as positively aritim that Lee and his en-fire army are hurrying with all possible haste to reinforce Pemberton at Vicksburg. The country about here looks precisely as it did when we were last here. At our left is the Allegalmy Ridge and the old carth works remain.
